Our Cleaning Process Restores Even White Serge Suits to Their Original Colors and Freshness

Very few cleaners can do anything with white serge. Many of them who wash the garments in gasoline, get out the dirt fairly well but the pure, clean natural color is destroyed. Our steam cleaning process leaves them absolutely clean, retaining the same beautiful color and freshness as when new.

Phone us and we will call for yours. Our charges are reasonable.

NORTH SIDE NEWS.

Thought Melan Bridge Excavation Was "Cave-in."

Local and Transient Public Interested in Work.

IS WELL UNDER WAY.

Good Progress Made in Big Undertaking.

Other Items of Interest on the North Side.

"Is that a cave-in?" The question was asked this morning by a stranger on a street car as the car was passing the excavating for the Melan bridge extension. When he was informed of the nature of the operations there he seemed greatly interested.

And the public, both transient and local, take great interest in the extension work. Even a dusty day like this does not keep the crowds of people who spend a few moments each day watching the men and teams at work in the excavation. These include both the idle rich and the idle poor as well as all other classes and conditions of people.

The digging is getting well under way. So far no serious accidents have happened. The Western Union Telegraph company have removed their poles and wires out of the way. The street car company have finished relocating their tracks. Since then a larger force of men have been at work and now it looks that the piers and abutments of the extension will be in place before the flood time of June. The comparatively dry weather has aided in the work. The big shovel tramway has been installed and when in operation will greatly hasten the completion of the digging.

The Art and Craft Embroidery club met Friday afternoon at the home of Mrs. A. M. Goodman on Garfield avenue. The next meeting will be held next Friday afternoon at the home of Mrs. Charles Myers at 829 Jackson street. The following names were on the club: Mrs. A. M. Goodman, Mrs. W. S. Bergundthal, Mrs. C. D. Bergundthal, Mrs. John Knoll, Mrs. G. B. Camp, Mrs. Rose Cole, Mrs. J. M. Haupp, Mrs. E. Jordan, Mrs. Charles Myers, Mrs. A. V. Small, Miss Elizabeth Campbell, Miss Wilma Bergundthal, Miss Grace Page and Miss Euphemia Page.

An unknown man Friday afternoon per the telephone notified the 16-year-old boy of the State Journal that his name shouldn't be used in the North side news of this paper. He said:

"Is this the State Journal? You tell that North Topeka reporter not to use my name in the North side news. When I need assistance I'll call on you."

"Who is this, please?" purred the O. B., but the man at the other end of the line hung up without replying.

The reason why the man wishes his name omitted from this much perused column, like his identity remains a great mystery, but—

The State Journal prints the news and the said individual's name becomes connected with news in any way, shape or form, it will probably appear in this paper in connection thereof.

Now nearly every printer of any age will be telling how he worked in the same shop with Mark Twain.

But, remember, you voted for him.

A Topeka landlady says she doesn't miss her daughter who left home after being married. Which shows how staid the boarding business makes a person.

It is now said that some of the supporters of Ballard were so optimistic that they had ordered trousers, made with pockets of the pint and quart size.

Unless it is knowing an actress, the average youth thinks there is nothing quite so romantic as a friendship with a trained nurse.

"I don't like to see a woman go barefooted, even on a farm," said Bill Black today. "That's all right for barefooted, but most of the women are not Maud Mullers."

"If you are going to write a story about a trained nurse," said one of the latter to a Topeka man this morning, "let me give you some professional advice. To make your story realistic, do not speak about the 'sweet-faced, smiling nurse' for she generally has a perpetual frown; and do not tell how 'with her cool, calm hand she soothed his fevered brow,' because she doesn't. If she can help it, and for pity's sake, don't have the patient 'all in love with her' and above all do not have her marry the patient. It seldom happens."

IS HALTED BY BULLET.

Carter, Leader in Jail Delivery, Shot by Denver Officers.

Lying with a bullet hole in his head in the county hospital in Denver, Floyd Carter, the Shawnee jail breaker, has written his father, Green G. Carter, of North Topeka, "come quick if any of you want to see me alive."

He was shot Thursday by Denver officers who have been watching for him for months with descriptions furnished them by Sheriff J. D. Smith. The information received indicates that Carter resisted the officers. That Carter is captured was learned by Deputy Sheriff Judkins through one of the fugitive's relatives. He has been in the hospital two days.

Until two telegrams had been sent from here today, it was not certain that the Denver authorities had the right man. Carter had been using the alias Fred Smith since escaping this county, but Sheriff Norton now satisfied the wounded man is his prisoner. It was learned shortly after Carter's escape that he intended to make his way to a Colorado ranch where he knew some cowboys.

Carter, convicted of larceny from Union Pacific box cars and awaiting sentence to the penitentiary in the county jail was the ringleader of the jail delivery last fall in which Sheriff Bayliss was assaulted and almost killed. In that delivery, Carter, Herman Thompson and Jay Sloan escaped. Carter when Bayliss opened the cell door, threw a handful of red pepper into his face blinding him and then struck him with a heavy iron bar broken from a bed. The other two prisoners planning the escape, then used similar bars while Carter yelled, "Kill him, kill him."

Steen was captured the day after the escape. Carter when Bayliss opened the cell door, threw a handful of red pepper into his face blinding him and then struck him with a heavy iron bar broken from a bed. The other two prisoners planning the escape, then used similar bars while Carter yelled, "Kill him, kill him."

Real estate men have reaped a harvest this week in Topeka.

The Trapp-Stevie company, printers, have moved to 113 East Eighth.

The Shawnee Bar association met at the Commercial club for a social hour this noon.

W. P. Hemphill, manager of the Independent Telephone company, is a famous fisherman.

B. P. Wagner, formerly a reporter on the Topeka Real Estate Dealers' association, will be the speaker at a meeting of the Ad club to be held Tuesday noon. All business men of the city are invited to be present. This is the last meeting to be held under the present officers. About the first of May new officers will be chosen.

Ball game spectators were somewhat surprised yesterday, when at the beginning of the seventh inning five wagons of the Mutual laundry went spinning around the outskirts of the park. Whether this was a perpetration of the management or an effort of the drivers to get back up town before the game was over, is not known. At any rate it proved a clever ad for the laundry.

Just now the Provident association is having difficulty in supplying the demand for girls and women for housework and other purposes. Secretary Guy T. Justice states that there never was a time in the history of the association when labor of this kind was so hard to procure. This is an indication that times are prosperous. Husbands are now employed, and then, too, there are a good many girls and women turning their attention to gardening.

James E. Gardner has written a letter to the State Journal complaining because filthy things have been written on the sidewalk at Third and Jefferson and the police do nothing to find the miscreants.

Tomorrow will be tuberculosis day in the churches. Members of the Ministerial union will tell their respective congregations about the disease that takes off a seventh of the people of the United States.

A small fire at 7:30 last evening did trifling damage to the one story frame dwelling at 64 Brooks avenue. A curtain on one of the windows caught fire, from a stove nearby, but was quickly extinguished. The house is owned and occupied by R. P. Summers.

City Clerk Purcell in an automobile and a Union Pacific freight train had a race between Topeka and Silver Lake.

Any one of our five wagons

will call for and deliver your Lace Curtains!

We keep each department of our laundry up to the TOP NOTCH for doing High Grade Work.

Curtains sent here are returned thoroughly cleaned, properly folded and returned.

Send us word to call for your Lace Curtains this week.

Topeka's New Modern Laundry Starts Business Monday Morning

It's the finest, newest, best equipped, laundry possible. Not one cent of money, nor one whit of time has been spared to make this laundry a credit to Topeka and a blessing to its people. For weeks we have been hard at work, installing new machinery and remodeling our building and on Monday morning we shall have all in readiness to start operations.

Do you realize what this means to you? It means that you are now offered the service of a laundry conducted along strictly metropolitan lines. A laundry equipped with the very highest type of machinery, operated by skillful employees and supervised by an experienced, practical laundryman. It means that you'll now get laundry service that you'll be bragging about to your neighbors. It means longer wear to your clothes and more satisfaction the while. We are located at

218 West 6th

Right in the heart of the town; convenient for you, if you care to leave your bundles and call for them personally; a central point which insures prompt delivery if you prefer to have us to call at your door.

Rapid Automobile Delivery

We have determined to make this laundry strictly up-to-date in every respect—the delivery service will be the fastest and promptest possible. No plug horses—no battered up wagons, but a powerful, speedy, automobile delivery plan. Within a few minutes after you laundry is finished, by our superior facilities for fast work, it will be whisked to your door by a fine appearing automobile delivery car. This means quick, prompt, service; no waiting—no disappointments, but your laundry home when you want it, all clean and beautifully finished.

Best Laundry Machinery Made—Everything New

Positively the highest type of machinery known to laundering. Machines which save time for us and clothes for you. The collar finishing machines, for instance, are far ahead of anything the town has ever known. Every collar is completely smoothed on every edge; where it touches the shirt, the tie and the neck. Our large machine for ironing table cloths, sheets, etc., is as big as a printing press. It takes them in on a roller, full size, and thoroughly irons them on BOTH sides. Dozens of other machines for every purpose, are more up-to-date and superior to any other laundry in the state. One trial will convince you that this is the place to send your work. Our prices are the same as you have been paying for alleged first class work. Just call us up and the Auto will come in a hurry.

Yes, sir; I want to be Sheriff of Shawnee county. I have tried to live a Republican life in Shawnee county for 25 years. Believe I know how to conduct the business in the Sheriff's office and if elected Sheriff will make just one promise: to do every little thing about the office right up to the handle and when I go after a prisoner, will bring him if I have to use a block and tackle. I will enforce all laws now on the statutes so far as the Sheriff's duties go. That's all that's necessary.

IRA M. ORNER,

Candidate for nomination for Sheriff of Shawnee County.
